Günko desinged welded frame rack cabinets

We are aware of our responsibilities as Gunko industrial.

Elegant robust structure consist by front and rear welded frames.

19" Elegant Net & Elegant Pro rack cabinets are designed to meet the needs of high density network applications and it is engineered for superior weight capacity with welded construction.

%100 Recyclable packaging Materials

Elegant flat pack racks
less carbon footprint

Green advantages of fat pack

Do not forget your environmental responsibility

Compared to pre-assemble products flat pack rack cabinets is more environmentally conscious and it cuts down on size, which cuts down on shipping costs and also reduces the carbon footprint for a green Nature environment.

Elegant flat pack Rack cabinets enables consumers to assemble a product themselves with a manual instruction, saving significant amounts of money for the customers by reducing shipping and storage costs and for the consumers it offers an easier shape / size to carry.

You can not change the structure of the buildings but you can order Flat pack Elegant rack (all in 1 pack)

Easy transportation for retail customers

Door / Elevator

Thanks to Flat pack construction it is possible to bring them also into places with difficult access, e.g. basement or attic, narrow door-openings or spiral stairs.

Easy load and discharge with forklift / stack up to 10 pcs all in one packages.

Spiral stairs

Elegant Rack Enclosures

It may be a small part of your total network investment but the right infrastructure enclosures can provide an enormous benefits, you can extend the life of your system by choosing the right enclosure and cooling systems, the product quality makes the difference between success and frustration, as everyone knows the demands of reliable and efficient data transmission requires the highest level of uninterrupted system performance.

We improve our self continuously in order to follow the modern style of today's technology as closely as possible in a harmonisation, Gunko new generation Elegant and server rack models now offers a full range of high-reliability products for networking environments, rack cabinets has been designed for higher density cabling and connectivity system applications and also offers ease, density, availability, affordability and scalability together, it's a well-engineered Rack cabinets offers you a high level of versatility and flexibility for routing high density cable bundles.

Networking enclosures house more equipment when you compared to the past technologies, it is inevitable for us to improve our product range in parallel with innovative communication technology devices and components,

Welded frames are providing an enough robustness for a comfortable storage, Elegant & Server rack cabinets providing a safe housing for your network, its also made a sturdy steel construction for a high load carrying capacity.

Elegant Pro / Elegant Net / Eegant Wall and Server Rack IT cabinets offers the permanent solution for management of Network devices and cables. The unique and effective product range is the ideal solution to support your high cost and valuable network and server devices / equipments with its durable structure, our free standing rack cabinets consist of 4 post mounting rails, the mounting rails and welded frames are typically made of sheet steel, 19 inch mounting rails have square holes that allow you to mount rack equipment to them with screws, you can also use horizontal rails or shelves that you mount in the rack cabinet to provide extra support

Gunko Network and Serer Rack cabinets comply with international standards of EN-61287-1 / IEC 60297 norms, the width of the mounting rails (19 inch), horizontal and vertical measurement of the mounting holes, the size of the equipment cabinets and other measurements has been standardized.

Rack cabinets are designed to solve the problems of today's networking operations with it is large internal volume providing a unique work space and cabling accessibility, modular structure also providing extremely space efficient, saving significant amounts of money for the customers by reducing shipping and storage costs.

Rack cabinets is employed in the most various environments, as industrial installations, IT/ Broadcasting, Telecommunication, railway, military industry, communication and data centers.

Elegant & Server Rack IT rack cabinets are manufactured with different width&depth sizes as mentioned below.

Width : 600mm / 800mm

Depth: 600mm / 800mm / 1000mm

Width : 800mm Elegant cabinets are designed for the purpose of high-density cabling.

Elegant PRO 600
IT Rack Cabinet

Elegant IT rack series offers the permanent solution for management of Network devices and cables. The unique, flexible and effective range is the ideal solution to support the Network and server applications with its welded and durable structure.

Elegant IT rack networking Cabinets are intended for installation of data and telecommunication devices and their distribution systems. Mostly used for structured network cabling systems in office environments, Also to be used in computer-rooms and small or large sized data-centers. A lot of options for doors, side- and rear panels, as well as many different accessories, make the use of the enclosure very flexible.

Removable side and rear panels allow comfortable and easy access to the installed devices for maintenance from all sides of the cabinet. For active cooling it is possible to install an optional fan-unit into the roof or 19inch rack mount type fan units. Thanks to flat-pack construction it is possible to bring them also into places with difficult access, basement or attic, In the narrow entrance or stairs.

Vertical mounting rails are adjustable throughout the entire depth of the cabinet and have high carrying capacity with 1.5mm thickness. Silk-screen mounting rails are providing ability to count U-Marking from top to down & down to up for easy device installation.
