

# Wired Handheld Microphone

## TS-331

Cable 10 M

### Feature:

- \* Strong zinc alloy structure, flexible steel nets with non-deformation and shatter-resistance advantages.
- \* Using special plating or baking paint technology to process, strong resistance to alcohol corrosion.
- \* Connect strong anti-broken Microphone cable and durable mute switch.
- \* Applying the patent type head and tube assembly technology, avoid glue water.

### Sound Quality Features:

- \* The sound is pure and powerful.
- \* Good high frequency transient response, can easily cope with the problems that singing enthusiasts' inactive to high frequency areas.
- \* High frequency has magnetic feeling.
- \* Suitable for professional performs, KTV singing, and high-end speech circumstance.

### Specifications:

Model	TS-331
Transduction Theory	Moving Coil
Acoustics Theory	PG(Pressure Gradient) Receiver
Adaptization Type	cardioid type
Frequency Response	50Hz-20kHz
Normal Impedance	600Ω
Sensitivity	0°-52dBV±3dBV (0 dB =1v/pa at 1kHz) / 94 dB SPL
Connection Port	XLR
Weight	0.204kg
Dimension	φ52.2x172.2mm
